Swingblade

A truly innovative knife for the serious and dedicated hunter. The shape of the blade is optimized for skinning, but will work perfectly for any other job. The inversed gut opener lets you open the gut and perform the skinning process without risk of damaging any organs. A strong locking mechanism ensures safe operation. The blade is made of stainless steel Sandvik 12C27, and the handle is made of Kraton rubber. Available in black and orange and delivered with a nylon sheath and gift pack. Patented.

Swingblade Orange

Swingblade Black

Swede 10

A large, very solid folding knife for the most demanding situations. 10 cm blade of stainless steel Sandvik 12C27, hardened to 57 HRC. Strong locking mechanism and ergonomic handle of Kraton rubber. Available in black and orange. Delivered with hard nylon sheath and gift pack.

Swede 10

Swede 8

Swede 8

A pocket-sized, but yet very solid folding knife with locking mechanism. 8 cm blade of stainless steel Sandvik 12C27, hardened to 57 HRC. Handle of Kraton rubber, available in black and orange. Delivered with hard nylon sheath and gift pack.

17" Orange

Combi-saw

A smart and light combi-saw. When folded, it is safe to carry in a bag. Three different 17" saw-blades are integrated; for wood, for meat and for steel. A light and strong construction in aluminium and with plastic handle. Available in black and orange.

Butcher set

A professional butcher set for field game processing. Four specially designed knives that will help you deal with skinning and processing of small and big game. Stainless steel and Kraton rubber handles makes this set functional and hygienic. The nylon bag is easily transferred into a carry-on belt.

Nordic W11

Nordic H8

Nordic JoF7

Swede 88

Swede 10

Swede 8

Nordic W11

A very strong big game knife with 4 mm thick stainless steel Sandvik 12C27. Oiled hardwood handle with nice inscriptions. The length of the blade is 11 cm, and the knife is delivered with a leather sheath and in a gift pack.

Nordic H8

A perfect combination of design and functionality. A multi-purpose fixed blade knife with strong 4 mm thick stainless steel Sandvik 12C27. Oiled hardwood handle with inscriptions. The length of the blade is 8 cm. The knife is delivered with a leather sheath and in a gift pack.

Nordic JoF7

A specially designed small game fixed-blade knife. A short, but exceptionally strong blade optimized for small game skinning. Hardwood handle, but also available in curly birch. Stainless steel Sandvik 12C27. Delivered with leather sheath.

Swede 88

A very popular, light pocket knife with locking mechanism. A thin stainless steel Sandvik 12C27 blade. Hardwood handle, but also available in curly birch. Delivered with leather sheath.

Swede 10 Wood

A large, very solid folding knife for the most demanding situations. 10 cm blade of stainless steel Sandvik 12C27. Strong locking mechanism and handle of hardwood.

Swede 8 Wood

A pocket-sized, but yet very solid folding knife with locking mechanism. 8 cm blade of stainless steel Sandvik 12C27. Handle of hardwood.

Fine Swedish knives since 1882

Tradition and innovation, since 1882

At EKA more a century of crafting tradition is combined with modern production technology. Each knife is subject to most rigorous quality control and comes with a 10-year technical warranty. EKA's knives are known throughout the world for functional design and first-class materials. To work with an EKA knife; feel the grip, the strength and the excellent sharpness, is something above the ordinary. Already in the year 1894 the sharpness of the EKA knife was challenged. Mr Olsson, Mr Jansson and Mr Berg made a wager as to who could most speedily carve through a 31 cm birch log. Mr Olsson won. He finished in 4 hours. His EKA knife is today framed in EKA's office in Eskilstuna.

World-class service

Flexibility and customer service are key words for us at EKA. A small and efficient administrative staff consisting of committed and quality-minded employees ensure that the needs of the customer are filled. Many companies and organisations buy EKA knives to give away as both promotional and profile gifts. EKA does all gift and promotional markings in-house in order to retain full control of the process.

By appointment to H.M. the King

By appointment to H.M. the King of Sweden "The Royal Supplier Signum" can only be used by companies appointed by the Royal Swedish Court. There are about 130 appointed suppliers and the appointment is a sign for Swedish quality. The suppliers products are in many cases world leading and good examples of high quality Swedish design.
